WORK EXPERIENCE

Skelar (Leaply)

Marketing Motion Designer

Remote, Ukraine

May 2026 – Present

- Develop and produce short-form marketing videos and static creatives for user acquisition, turning creative concepts into polished advertising content across multiple formats.
- Leverage generative AI to create and integrate custom imagery, video, and voiceovers, rapidly turning creative concepts into production-ready marketing assets.
- Drive video production from raw footage and source assets to final delivery through editing, motion design, compositing, and visual refinement, adapting quickly to new creative directions and localization requirements.

Devabit

DTP Engineer, Multimedia

Lviv, Ukraine

Dec 2024 – May 2026

- Prepared and finalized multimedia assets for a global localization pipeline, ensuring visual accuracy and consistency across multi-language video deliverables.
- Built automated workflows for transcription, subtitling, and AI-assisted content processing, significantly cutting repetitive manual work.
- Applied generative AI to enhance and clean up source footage, and to produce and integrate voiceover content into final deliverables.
- Developed custom scripts and tools to streamline document and media processing, improving consistency across high-volume projects.

Placard

Technical Graphic Designer

Lviv, Ukraine

Dec 2023 – Dec 2024

- Designed visual materials and technical layouts for banners, commercial displays, sticker packs, industrial decals, and other branded print products.
- Managed the full print production lifecycle from initial design to final production, ensuring designs met both creative and practical requirements.
